# Something That Should be a Line Chart

#### Slower Ride

Uber's growth in Latin America has slowed in recent years.

#### Change in revenue from previous year

2017 2018 2019\*

°first nine months Source: Uber's SEC filings

# Something That Should be a Line Chart

#### Slower Ride

Uber's growth in Latin America has slowed in recent years.

#### Change in revenue from previous year

**2017 2018 2019**°

- We use lines to show change over time
- Lines make pace of change obvious
- These bars have to point out years
- Vertical alignment of lines would show that they are the same year

°first nine months Source: Uber's SEC filings

From this very interesting WSJ article about Soft Bank's funding of Uber and its competitors
